EDITORS' FOREWORD

THE most outstanding event in the school during the current year was the completion of the new shop building. The feature article departs, therefore, from the traditional historical note to one of a practical nature which that acquisition demands. Considering the opportunities offered to develop interest in technical and mechanical fields, the editors are proud to present an account of the new machine shop as the feature article of the current Milestone.

The Machine Shop

For the original idea of the machine shop at Governor Dummer, one must look to the Oundle School in England, where under the leadership of Headmaster Sanderson the machine shops grew to be an integral part of the school educational policy. There, they were used as laboratories where boys learned practical mathematics and science and where the interest of indifferent students, stimulated by practical problems of construction and design, might be developed and extended to include related fields. At Oundle every boy was required by Dr. Sanderson to spend several hours a day in the shops; and the equipment was increased until at the time of the World War it was sufficient to permit the production of shell eases and other military supplies.

At Governor Dummer there is no intention that the shop shall ever be more than its name implies, a place where a limited number of boys may cultivate their interest in mechanical problems. In a school whose primary purpose is to prepare boys to make the most of their opportunities in college, the boys' schedule is already too full to permit them to spend hours each day in the machine shop or to engage in the manufacture of munitions. But there are boys who are preparing for engineering colleges and who should not be without the opportunity to develop those interests which have led them to choose engineering as a profession. And there are others who may not be planning to be engineers but who would nevertheless prefer to spend their spare time in making things, or in learning to make things. It is for such boys that the Governor Dummer machine shop is intended. Although the Oundle School shop obviously could not be fitted into the schedule of an American preparatory school, Mr. Sanderson's experiment there definitely proved that mechanically-minded boys who have an opportunity to exercise their talents not only develop them but also become more proficient in unrelated academic pursuits.

The acquisition of the Noyes farm and buildings by gift and purchase in the summer of 1937, for the first time made possible the development of the shop program which the headmaster and trustees had in mind. As soon as the possibility was definitely established, the plan was placed before the student body. It was explained to the boys that the funds available must be reserved for the purchase of materials and that the boys themselves would have to supply most of the labor. The response was enthusiastic; nearly half the boys in school volunteered to assist. Thirty-five volunteers were accepted, and the work of remodelling the old cattle barn began.

The first stage of the work consisted of removing the interior structures in order to secure unobstructed floor area. After the stanchions, pens, and concrete feed troughs had been removed, the floor was found to be in an unsafe condition. With used planks from demolished buildings in Newburyport, a sturdy and durable underflooring was constructed by the boys at a fraction of the cost of new flooring. Later, a hard pine top was laid over the planking, and additional supports were placed

5 :33 N B 1708

under the floor to prevent vibration. Nineteen new windows were installed in the building to provide adequate lighting, the exterior was reshingled, and plans were drawn for the heating plant. The boys also made floor plans for the efficient location and operation of the machines to be installed later.

During the summer of 1938, skilled workmen were used to make such preparations for the next stages as were beyond the skill of the boys. A boiler was installed adequate to heat not only the boys' machine shop but also all buildings in the group. Coils, radiators, and connections were made and plumbing installed. Later the boys completed the heating connections and installed a hot water system.

By the fall of 1938 all was in readiness for the installation of machinery. A small group of boys were busy during the fall term in dismantling an old LaSalle automobile, reconditioning the motor, and setting it on a permanent base in the shop to act as a power plant. Completed, the motor develops 85 horsepower, enough to meet all power demands.

The first machinery to be installed included a small lathe contributed by John Newman of the Class of 1939 and a drill press contributed by Mr. Frederick H. Payne of the Deerfield Tap and Die Corporation. Mr. Payne also contributed a set of screw plates which proved very useful in subsequent construction.

Through the generosity of Mr. Philip M. Morgan of the Morgan Construction Company of Worcester, the shop next received a Cincinnati No. 3 universal milling

5 :33 N B 1708

machine with an index head, mandrels, and collets; a twenty-four-inch Stock-bridge shaper; a Bement heavy drill press; a thirteen-foot Draper lathe; and a grinder. With that equipment it is now possible to complete any project the boys may undertake.

Dr. Edward C. Koenig of Buffalo, New York, has since presented an eightcylinder Stearns sleeve-valve motor to be used for demonstration purposes but also available as an additional source of power if needed.

The installation of shaft hangers, shafting, and belting has occupied a group of boys during the early weeks of the present term; but already the facilities of the shop are being put to use on definite projects. One group of boys is installing an additional set of gears in a Ford truck assembly in order to make a farm tractor.

The shop has already reached a point where it is difficult to recall that only a little over a year ago the building was a disused cow stable. But it is expected that many boys in later classes will recall with gratitude the efforts of the boys whose labors brought about the change and the generosity of a number of parents and friends whose gifts, aggregating several thousands of dollars, defrayed much of the cost of materials, skilled labor, and supervision.

The Football Season

Mr. Edward Eames

The Governor Dummer football team experienced a very successful season this year with four victories, one tie, and two defeats. When the squad first reported for practice, there seemed to be a wealth of backfield material but no limemen. The combined efforts of Mr. Edward Eames, head coach, and Mr. Arthur Sager, Mr. Richard Wickenden, and Mr. Wynne Wister, assistants, and hard work on the part of the players were needed to produce a balanced team.

For the first contest the team travelled to South Braintree, where they defeated Thayer Academy, 32-7. The scoring was done by Captain John Koslowski and Matty Hannon, who each scored two touchdowns, and by Spencer Brewster, who scored one. The team as a whole made an impressive showing in its first encounter.

The following week the team overcame the Harvard Freshman seconds by a score of 19-0. The Harvard team lacked unity and variety of plays; and the Governors completed several passes for long gains. Edward Mulcahy scored two touchdowns on off-tackle plays, and Matty Hannon scored the third on a pass from Clarence Pickard. Ed Sheffleld and Clark Young stood out defensively in the line.

In their third game of the season the Governors met defeat at the hands of Kimball Union. A fumble deep in the Governors' territory was recovered by Kimball Union early in the first period, and the visitors' first score quickly followed. Each team scored twice in the second half, making the score 20-14. Late in the last period the Governors threatened again but lost the ball on an intercepted pass after long runs by Tom Tenney, Bob Nutter, and Matty Hannon had brought them almost to the goal line. John Koslowski and Adrian Hasse made the touchdowns.

The following week brought a 12-0 victory over Vermont Academy. Captain Koslowski and Matty Hannon scored for the Governors in the first half. During the second half the Governors played defensively and succeeded in stopping the opponents' drives.

The game with Moses Brown on the following week-end resulted in a scoreless tie. The play moved up and down the field several times, and many fine plays were executed by each team. The Governors' narrowest escape occurred when they intercepted a Moses Brown pass on their own one-yard line. Matty Hannon then punted seventy-five yards from behind the goal line to end the most serious threat of the afternoon. Later in the game Ed Mulcahy intercepted a pass on the Moses Brown thirteen-yard line. On the following down Captain Koslowski attempted a field goal which failed when the ball hit the crossbar squarely between the uprights.

5 33 708

ne Governors lost a lose game to Tabor Che Governors scored early in the game and defended their scanty lead until the closing minutes of play when Tabor threw a number of long passes and finally completed one over the goal line for a touchdown. The extra point gave them the victory. The Governors' line was outstanding in defensive play; and the Marion team gained very few yards through the line.

In the final game of the season the Governors really showed what they could do by defeating Deerfield Academy at Deerfield, 13-6. On a wet field both teams played cautiously at first; but soon the Governors secured the ball in Deerfield's territory on a punt blocked by Adrian Hasse and recovered by Tom Tenney. After two running plays Hasse scored on a pass from Ed Mulcahy. Pickard converted.

F. Harrison Poole John Everett Managers

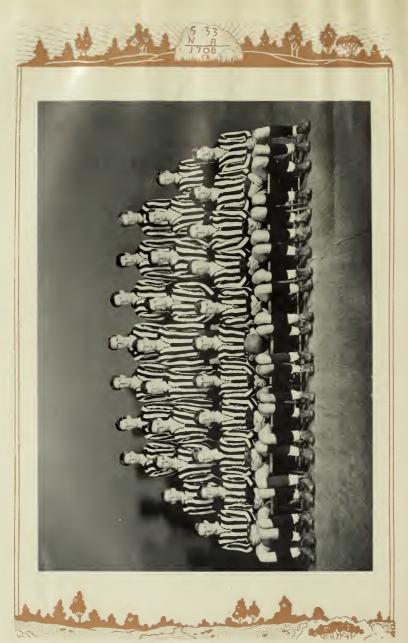

Deerfield's score followed shortly when Captain Herrick plunged across from the three-yard line. During the second half Deerfield made several long gains; but the Governors' superior drive and tackling turned back each threat.

In the last quarter Clark Young blocked a punt which Pickard recovered and carried to the twelve-yard line. After several line bucks, Matty Hannon carried the ball through center for the final touchdown.

Although many fine players contributed their efforts and abilities to the team, credit for the successful season must be given to the squad as a whole for the excellent spirit and splendid cooperation which prevailed.

The Soccer Season

Mr. Howard Navins Coach

About thirty students reported for the first soccer practice of the year. This sport, although only three years old in this school, had a good group of veterans to start with in addition to a large number of enthusiastic beginners.

After winning two practice games, the Governors met their first real competition against the Andover Varsity. Overpowered by a much stronger team, the Governors lost 6-1 in spite of the stubborn resistance put up by our backfield.

On October 15 the first home game was played against the M.I.T. Freshmen. The Governors' forwards performed well, but could not score. The game was saved, however, in the last few minutes, when Parker kicked the tying goal and brought the score to 2-2.

Four overtime periods made the competition keener, but neither team was able to score.

The following Wednesday another home game with Kimball Union Academy resulted in a 2-2 tie. Kimball Union had a very enthusiastic team, but was unable to defeat the Governors even with two overtime periods.

The team's next game ended in a 5-0 defeat by the Exeter Reserves. The defeat only spurred the team forward, and on October 28 they downed the Harvard Freshman Seconds with a 5-0 victory. Undisturbed by a high wind and by a larger field than they were accustomed to, the forward line func-

than they were accustomed to, the forward line functioned perfectly with accurate passes and with shots that counted.

On November 12 the Governors lost to Tabor 3-2. Captain Pitcairn scored the first goal in the game for the Governors with a difficult shot from the side. The efforts of the fullbacks and of Sanford Young in the goal failed to avert the defeat.

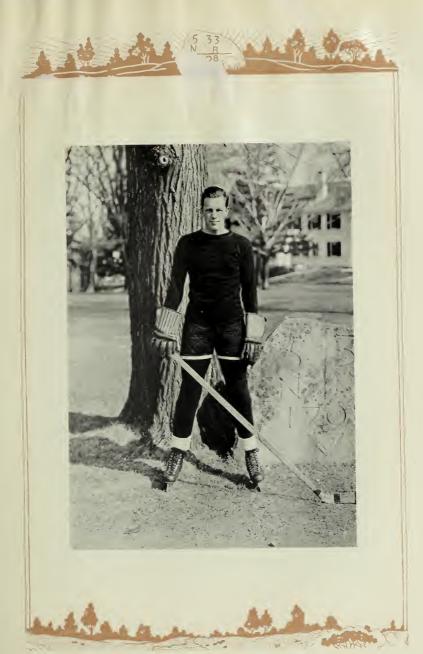

The following Tuesday, in preparation for the final game, the team won a victory from Reading High School, 3-2.

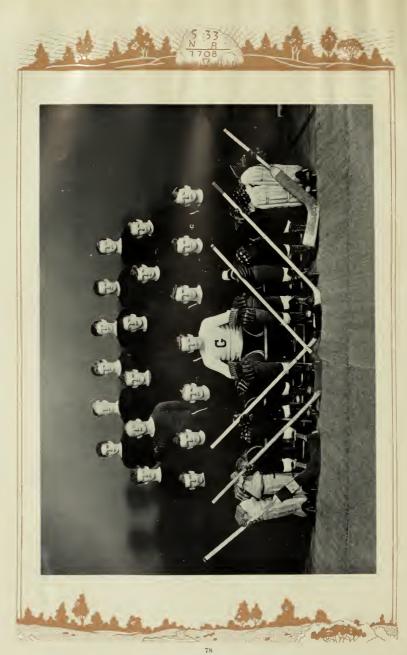

On Friday, November 18 the Governors lost their final game to the Deerfield Seconds 4-1. The game was played at Deerfield under adverse weather conditions. The backs put up stubborn resistance, but the line was not strong enough to penetrate Deerfield's defense.

The Hockey Season

Mr. J. Chandler Hill Coach

For the second year in a row there was a scarcity of new hockey material at Governor Dummer which prevented the team from having a very successful season. Three veterans of last year, Ted Munro, Bob Lyle, and Gordon Tooley, proved to be a very effective first line. The "kid line" of last year, consisting of Dick Wyman, Dana Babeock, and Harry Davy, began the season as the second line; but by the end of the season Henry Payson and Winthrop Endicott were frequently substituted in the second line.

Captain Pearson and Frank Collins stood out on defense. Again and again they skated the length of the rink to stop a breaking wing of the opposition. By improving more than any one else on the squad, Collins won his post at defense although Gordon Johndroe also

saw much service. Art Rolfe, the regular goalie, and Kim Eastman as substitute goalie made many fine saves.

The team opened its season on the Parsons rink, dropping its first encounter to Belmont Hill. The Governors' lack of practice was apparent in this game, for the visitors had been practicing for several days. The second game of the season was also a defeat for the Governors, the Andover Reserves being just a little too strong for them.

Two victories came next, the first over Roxbury Latin in a game in which the team showed much improvement, and the second a decisive victory over the Phillips-Exeter Reserves. Kim Eastman in the goal

almost shut out the Reserves, but they finally scored

from a mix-up in front of the eage.

The next three games resulted in ties. The first tie was at Deerfield, and it could not be broken even after two overtime periods. Then the Governors twice invaded the Dover, New Hampshire rink in search of a victory, but they were forced to be content with ties.

The team then closed its season with a sweeping victory over the Amesbury High School in which every member of the squad participated.

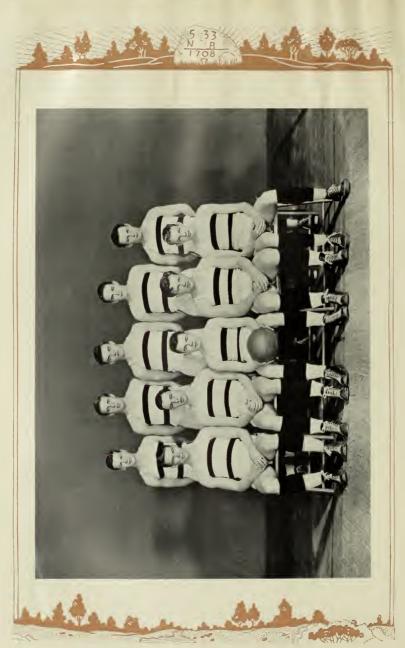

Mr. Hill and Mr. Wister made great progress in developing the material during the season; and with six of the thirteen letter men returning, it appears that the 1940 season should be a highly successful one.

The Basketball Season

Mr. Howard Navins

With the most promising material in the last few years reporting for practice, the 1939 basketball hopes ran high. The team lived up to its expectations in the first game with Milton Academy, which the Governors won handily, paced by Bertis Pratt's 18-point high score for the entire season. The following week the home forces lost a heartbreaking, one-point decision to Kimball Union Academy, 26-25, when Daneault, the visitors' outstanding performer, dropped the all-important basket from behind mid-court. The team as a whole played well, but the outcome was in doubt until the final whistle.

Not to be discouraged, the Red and White journeyed to Deerfield, facing what to the coach and to the players themselves was the most important contest of

the season. The opponents piled up what appeared to be an insurmountable lead in the first half, scoring seventeen points to the Governors' eight. In the final half, however, the complexion of the game was completely reversed. Bob Nutter climaxed the Governors' rally with a perfect foul shot to win the game, 25-24. Don Mortimer produced the most outstanding exhibition of the season against the Deerfield five, dropping field goals from almost every conceivable angle.

The next two games resulted in victories over the Huntington School team and the Governor Dummer Alumni; but a streak of bad luck and some exceptionally strong opposition interrupted the Governors' winning streak, and they dropped

three of the next five games, losing to the Harvard and the M.I.T. freshmen and to the Phillips-Exeter team, but winning from Reading High School and from the Babson Institute team.

The last two games of the season were thrillers, but the Governors came through with a victory in each. The Tabor team lived up to its advance notices throughout the entire game, and neither team was ever far ahead of the other.

Salem Teachers College provided fine opposition for the Governors in the final game of the season and stimulated them to the best exhibition of team work that they had produced during the season. Nevertheless the game was a close one, and it was all the Governors could do to eke out a 29-24 victory.

EDWARD KOENIG

The Wrestling Season

Under the competent instruction of Mr. Leander Kirk and Mr. Colin Kerr, coaches, and inspired by the splendid wrestling of such veterans as Captain William Ferris, Norman Piteairn, and Hugh Byfield, the team has set a record this year which completely overshadows the success of previous seasons of wrestling competition at the Academy.

This year, for the first time, Mr. Kerr was a resident member of the faculty, and hence was able to contribute far more time and effort to coaching than has been the case in former years. All the wrestlers agree that this fact has made a world of difference in the condition and competence of the team.

On January 21 the Red and White opened the season by wrestling a strong Phillips Academy team to a

Mr. L. R. Kirk

draw. Norman Pitcairn and Hugh Byfield pinned their opponents in short order with the skill and finesse that enabled them to remain undefeated during the entire season. Jack Griffith and Ed Mulcahy dispatched their men with case and proved themselves to be valuable wrestlers.

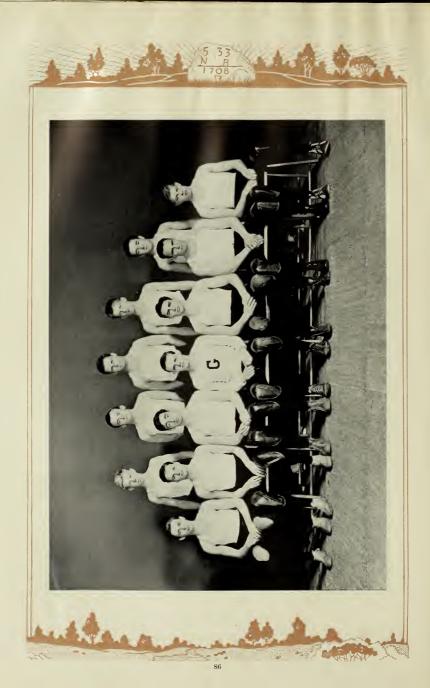

Again this year the closest match of the season was that with the Harvard Freshmen. Outstanding in this meet was Ed Mulcahy, who wrestled ten pounds out of his class against Harvard's strongest man and carried the bout to a draw on a fiercely fought overtime. Captain Bill Ferris and Norman Pitcairn also starred. The most spectacular fall went to Lee Ackerman by a three-quarter Nelson.

William Ferris Captain

In a meet with the M.I.T. freshmen, Captain Ferris wrestled a gruelling seven-minute match to a referee's decision. In the same meet Hugh Byfield pinned his opponent with a perfect half-Nelson and crotch hold.

The Governors closed the season with an overwhelming victory over the Tufts College freshman team. In the meet, agile Jack Burnham defeated his opponent in a full-length match in which Jack demonstrated the skill that has made him a formidable opponent throughout the season. Sam Messenger, after a valiant struggle with a man much heavier than himself, lost his match to Mitchell of Tufts. Both coaches were well pleased at the outcome of the season.

The Winter Track Season

Coached by Mr. Richard Wickenden, the winter track squad began practice early in the winter term. Because of the condition of the board track, the dirt roads near the Academy were used for training purposes. Several times the squad went to Andover to use the Phillips Academy cage and to practice with the Andover relay team. The squad showed promising strength in the running events, but was sorely lacking in weight material.

The team had its first taste of competition against Kimball Union on the New Hampshire team's new board track built from timber felled by last fall's harricane. Clark Young was the outstanding competitor for the Governors, amassing eleven points in the sprint, hurdle, and field events. Fred Greene, the English

Mr. Richard Wickender Coach

exchange student, completed an iron-man stunt by taking second place in the sixhundred and in the thousand-yard runs. Although the Governors lost the meet, it served as a valuable conditioner.

At the Eastern Seaboard Relay Carnival at the Boston Garden the relay teams of the Governor Dummer squad were very successful, winning their heats in both the one-lap and the two-lap relays. The one-lap team of Captain Noble, Dave Huggins, Dave Caldwell, and Clark Young won easily from Browne and Nichols; but the two-lap team ran into more difficulty. An early lead was surrendered to Browne and Nichols on the second leg. Showing remarkable running power,

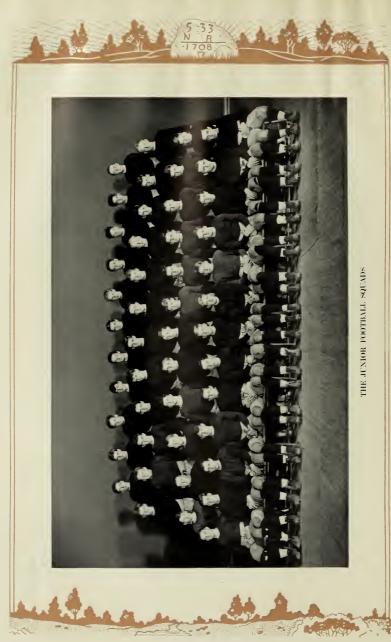

Dave Caldwell gained back the lead on the third leg to decide the race.

Six members of the team competed in the Harvard Private School Meet on the Massachusetts Institute of Teehnology track. Dave Huggins displayed fine form in winning the high jump with a jump of five feet, six inches. Dave Caldwell set a blistering pace in his heat of the six-hundred-yard run, winning easily in one minute, twenty and six-tenths seconds. But because Caldwell had failed to better the time set by Hanlon of Roxbury Latin in another heat, he was awarded only second place. Both Clark Young and Roland Noble showed creditable form in the dashes and in the hurdles. Young took third in the forty-five-yard hurdles and fourth in the three-hundred-yard dash.

The Baseball Season

Mr. Edward Eames

Five lettermen from last year's nine formed the nucleus of this year's baseball team. They included two starting pitchers, John Koslowski and Gordon Tooley; two infielders of considerable talent, Don Mortimer and Ted Munro; and one capable outfielder in Frank Collins. Although a number of promising players reported for the first practice, it was apparent from the first session that the coaches' great problem was to find a capable receiver.

Early season workouts were hampered by the inclement weather; and it was little wonder that the team dropped its first game to Milton 7-1, for it had not previously practiced on a regulation diamond. Clarence Pickard did a creditable job behind the bat and collected two hits for the Governors. Miles Cristman in the

ontfield and Francis Donoghuc in the infield showed themselves to be valuable additions to the team.

After the game Francis Donoghue, a smooth-fielding, experienced shortstop, was elected eaptain of the team; and on the following Wednesday he led the team to its first victory of the season, over Amesbury High School. Gordon Tooley supplied excellent pitching and received credit for a 4-1 victory.

Against the Harvard Junior Varsity the Governors found their batting eyes. Koslowski nearly won his own game with a homer in the fourth, and Munro twice singled to drive in runs. But in the fifth Harvard rallied and scored five runs. Tooley's excellent relief pitching halted the rally;

and the Governors salvaged the game by aggressive play and timely hitting.

On the following Saturday the Governors succumbed to the Phillips Academy team from Andover in a heart-breaking, eleven-inning struggle. Although Frank Collins' home run was the Governors' only score, Koslowski's spectacular pitching kept the visitors in cheek until the eleventh inning.

In the Thayer game on May 10 the Governors made eight hits yield thirteen runs for their third victory. Tooley, the starting pitcher, was relieved by Roger Shaheen in the fifth. Shaheen took over with the seore ticd and allowed but one run in the remaining innings.

before the end of the season.

throw.

The Governor Dummer track season opened on May 3, at Andover, as the Governors lost to the Phillips Academy Reserves, 72-49. Tom Tenney starred, winning the javelin throw with a throw of 141 feet, and 3½ inches. He also took second place in the broad jump and an easy first in the half-mile run, turning in the fast time of 2 minutes, 7.4 seconds. Dave Huggins, another veteran performer, won the high jump with a leap of 5 feet, 6 inches and also placed second in the 220-yard dash. Edward Mulcahy won the two-twenty in 24 seconds and also took second place in the hundred-yard dash. Dave Caldwell's 54-second performance in the quarter gave him an easy first in that event, and Lee Ackerman placed third.

Altogether Mr. Sager and the other coaches were well pleased with the opening meet. Many members of the team had done much better in practice; in fact, two school records have been unofficially broken. But the team badly needed practice in competition before the members could be expected to equal their best performances. Captain Matthew Hannon has done 20 feet, 8 inches in the broad jump; and Clark Young has thrown the discus 121 feet 11 inches. Their names may well appear on the new track-record board in the Lang Gymnasium.

On May 6, the Governors placed fifth among the ten schools entered in the New Hampshire Interscholastics at Durham. Clark Young took second place in both hurdle races; Dave Huggins took third in the high jump, and Tom Tenney earned a fifth in the javelin

Three records fell in the Kimball Union meet on May 20. Fred Greene ran the mile in 4 minutes and 42.8 seconds; Clark Young ran the 120-yard low hurdles in thirteen and eight-tenths seconds; and David Huggins set a new mark of five feet, nine and one-half inches in the high jump.

More records fell at Milton on May 27. Fred Green bettered his week-old record in the mile, doing 4:39.9. Clark Young's 13.6 seconds in the 120-yard low hurdles elipped two tenths from the record he established at Kimball Union; and Bill Cochran's vault of ten feet six tied the school record. The Governors won 54-36. B. T. W:

The Lacrosse Season

The lacrosse team was handicapped this year by the late season which made it impossible to use the main field as early as usual. Consequently the squad was forced to practice in the gravelled area near the Cottage, where there was room only for short passes and goal shots. It was not until the day before the opening game that the team was able to use the main field for a regular scrimmage.

The team was fortunate, however, in having a large number of candidates. Thirty players reported for the first practice; several of them had had one or two years of experience in the sport. From this material Mr. Murphy and Mr. Jennings have developed a very promising team. Captain Lyle and Edwin Sheffield have been the most effective players so far. Captain Lyle's ac-

Mr. A. Macdonald Murphy Coach

curate attack and precise passing have accounted for many scores; and Ed Sheffield's quick maneuvering and able stick-work have contributed greatly to the effectiveness of the attack.

On April 22 the Governors lost the annual opening game with the Boston Lacrosse Club. The Boston club is composed of experienced players, many of them former college stars; and despite the driving attack led by Captain Lyle and Roland Will, and some excellent saves by David Goodhart, the Governors were defeated, 13-8. The second game of the season was also a defeat for the Governors. In the second half they outplayed the M.I.T. freshmen, but they were unable to

overcome the first-half lead established by the visitors.

At Durham, New Hampshire, on May 6 the Governors lost a hard game to the New Hampshire freshmen. It was in that game that the team lost the services of Spencer Brewster, who suffered a cracked collarbone. Although he was a first-year player, he had already earned a starting position, and he gave promise of being one of the most valuable players on the team.

On Wednesday, May 10, at Cambridge the Governors were defeated by the Harvard Freshmen in a loosely played game. John Eshelman scored the first goal for the Governors, and Captain Lyle added two more; but the freshmen were too strong to surrender the lead they had earned in the early periods of the game.

The Tennis Season

The tennis team, again under the leadership of Captain Charles Hewitt, has enjoyed perhaps the most successful season in recent years.

Much of the team's strength was found in two new members, Bertis Pratt and John Abbott, who played numbers one and two respectively. Captain Hewitt and Windsor Frost returned from last year to complete the actual team. Besides these boys there were eight others on the squad, all of whom showed much improvement throughout the season under the eoaching of Mr. Stone. Many of these boys will be returning to play on next year's team.

Because of poor weather the courts were not ready for practice until a day or two before the first match, that with Thayer Academy. The team, in spite of lack

Mr. Benjamin Stone Coach

of practice, played very well in that match and took it by a score of 3-2. Bertis Pratt and John Abbott won their singles and also their doubles match.

The next day the team went to Cambridge, where they played and defeated Browne and Nichols School on the courts of The Oakley Country Club. John Abbott, unfortunately, was the only one to drop his match, but it was easily seen that his opponent had had much more practice than he. Charles Hewitt's and Windsor Frost's doubles was the closest in this match. They won in two sets by a score of 7-5, 8-6. This trip was sueeessful from all points of view.

The next match was played at Kimball Union and brought the third success-

ive vietory for the team by a seore of 3-2. The boys on the team were especially pleased to win this match, for it was a long trip to Kimball Union for the match, and at the same time it was a satisfaction to continue a winning streak.

The winning streak was broken at Andover on May 20, when the team met defeat by the Reserves. Bertis Pratt won his singles match in three sets by the score of 6-3, 5-7, and 6-1. Pratt and Frost won the first doubles match; the other two singles matches and the second doubles matches were lost.

Mr. Stone and the boys on the team deserve a great deal of eredit for their successful season, and it is hoped that next year's group will enjoy a similar season.

	24	Phillips Exeter	. 6	3
	27	Portsmouth Priory School	51/3	$3\frac{1}{2}$

The Golf Season

This year the golf team has no stars, but all the men regularly competing are consistent players and keep their scoring in the eighties. The team, captained by Harry Davy and consisting of Tom Parker, Wendell Sargent, Don Kelsey, Jim Dodge, Alexander Murchie, and Dwight Murray, has played five matches, winning two and losing three.

Very few schools in the Governors' class have golf teams, and hence it is difficult to secure matches that are very interesting and closely contested. Four of the matches played have been either won or lost by large scores.

The first match, played at Phillips Academy at Andover, was lost by a score of eight to one, with Tom Parker taking the only point. A return match was

Mr. Thomas M. Mercer

arranged to be played on the home course. The second match of the season was with Amesbury High School. The Governors won by a score of six to nothing. In the third encounter the team lost to Malden in a very close contest five to four. The following Wednesday, the team defeated Thayer Academy, nine to nothing, without much trouble. In their fifth match the golfers lost to Andover a second time, eight to one, but this time, every match went a full eighteen holes.

So far this season the boys have been playing in this order: Tom Parker and Harry Davy, one and two; Wendell Sargent and Don Kelsey, three and four; Jim Dodge and Alexander Murchie, five and six; with Dwight Murray playing as

a substitute in two matches.

On May 20 the team was overwhelmingly defeated by the members of the Ould Newbury Golf Club. In that match sixteen members of the Club were matched in eight foursomes with the sixteen leading contenders for the school team. Although the club members won, 22-2, the match provided good experience for the boys as well as an opportunity to make the acquaintance of the club members.

The Governors played their best golf against Exeter on May 24. Koslowksi and Parker won the first nine of their match two up but lost the second nine two down, thus splitting the match. Captain Davy, paired with Wendell Sargent, parred the first seven holes. Exeter took the meet, 6-3.

The Governor Dummer Chapter of the *Cum Laude Society* received its charter on February 10, 1934. The purpose of the society is to promote scholarship and to recognize scholastic achievement. In secondary schools its function is, therefore, comparable to that of Phi Beta Kappa in colleges.

The by-laws of the society state that to be eligible for election a student must attain a minimum standing of eighty percent during his senior year and must stand in the upper fifth of his class. A three-fourths vote of the faculty members is necessary for election; and the members are pledged to consider each candidate's record in the earlier years of his secondary school work, his diligence, particular aptitudes or deficiencies, and the nature and the number of the courses on which his average is based.

The successful candidates are initiated at the annual banquet of the society during the latter part of May. Alumni members and guests from near-by chapters are present to welcome the new members, and a guest speaker gives an address or reads a paper on some subject of scholarly interest.

This year on May 6 the local chapter was host at the annual gathering of the thirteen chapters in Northern New England. The discussion topic was: "Does propaganda involve perils which education should combat?" Professor Herbert Ross Brown of Bowdoin College was the luncheon speaker, and more than thirty delegates attended.

The Glee Club

After more than half of the school had tried out for the Glee Club last fall, those chosen commenced rehearsals with about fifty-five boys.

The first few months of strenuous drill brought great improvement, but the club did not seem to have the superior ability that some Governor Dummer Clubs have had in recent years. Mr. Arthur Sager, the director, realized this fact and therefore worked especially hard to get his club into shape for the first concert, sang jointly with The Bancroft School in Worcester. This concert was a success, but there was still room for great improvement on some scores. The next two concerts, also sung jointly, one with Abbot Academy and the other with the House in the Pines, showed much of the necessary improvement. By the time of the concert given at the University Club of Boston on April 13, the club had reached heights comparable to those of many former Governor Dummer Clubs. This concert was the first of seven given in the spring term. A week later in the concert given at the Women's City Club of Boston the club received the most enthusiastic applause from a very critical audience. Perhaps the greatest Club event was the broadcast on May 5. Although this broadcast was fifteen minutes shorter than those of the last few years, it was on the far superior coast-to-coast network. The program was composed of lighter songs which Mr. Sager thought would be more appealing in the limited time. On June 9 the club will climax an eventful year in its annual graduation concert.

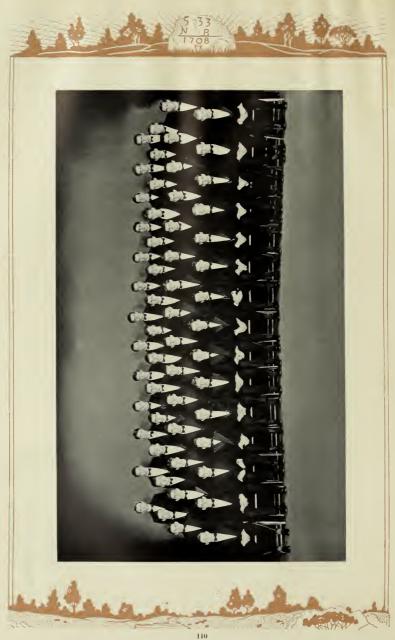

Many people fail to realize that a school glee club is something more than a group of singers. This year, especially, the members of the Governor Dummer Glee Club have had the opportunity to sing before many fine audiences and to increase their social experience, especially in the four joint concerts. Following all the concerts sung jointly there were dances which, from all points of view, made the trips and concerts more appealing to the boys.

So even though the long rehearsals became arduous at times, the work was more than compensated for when the concerts began. Few boys in the club would sacrifice the many experiences that they have derived from this institution.

The Archon

The Archon has existed for forty-two years as the school news magazine. When it was first published in 1897, it was known as Dummer News; but in 1913 it received its present name, which is the Greek word for leader. It appears seven times a year, featuring current school news and all the alumni news it can gather, and for the past few years The Archon has been sponsoring a great deal of research into the history of the school and its famous alumni, much of which has been published as feature articles.

This year *The Archon* has made a special point of printing as many photographs of news events as space allowed. Two new covers have appeared, an inclusive airview of the school buildings and grounds presented by the Gannett Publishing Company, and a photograph of the dining hall by George Leach and John Newman. There is no staff photographer, and *The Archon* is dependent on pictures by the students to fill its need. Chief contributors this year were George Leach, Eugene Gardner, and John Newman.

Loring Hubbell has done a fine job in the difficult position of editor this year, distributing and collecting assignments for stories; and Donald Stockwell has done an even better job than usual this year in keeping the many details of distribution running smoothly. The more than two dozen staff members have all helped to make the paper a school institution.

Several feature articles have been printed this year, including commemorative articles on Mr. Cobb and Mr. Jacob, articles on the library, and on Mrs. Stone's memorabilia collection of past school events. *More Briefly* has continued to hold its position as popular favorite among the columns, a position which it has held since it was started in 1934. The school roster and the directory of last year's graduates which appeared in early issues were both popular and useful features.

The Archon staff takes particular pride in the quality of the make-up of the magazine. In the quality of paper used, in its typographical make-up, and in the excellence of the half-tones, which are the finest obtainable, it sets a standard on which it has been widely complimented. It is a magazine of which Governor Dummer may be justly proud.

Mr. Theodore Barry, who acted as faculty adviser during the fall term, and Mr. George Freiday, who has held that position in the winter and spring terms, have given invaluable aid and enthusiasm which have helped to make the current year a successful one for *The Archon*.

The Library Council

The Library Council was organized at the beginning of the spring term and consists of a group of nineteen boys, one from each dormitory corridor and two representatives of the day boys. The Council was organized for two purposes,—as an improvement on the previous library system, in that it divides the work among more people, and to afford the members an opportunity to learn much about library work.

Under the previous system, Mr. and Mrs. Kirk acted as librarians with Edward McDowell as an assistant. Books could be borrowed for an unlimited period,—an unsatisfactory method because it made circulation very slow. It was not possible for such a small staff to take the time necessary to trace each book and to see that it was returned as soon as a boy was through with it. At the end of each term all books were called in, and it was found that many were missing, usually having been misplaced by boys who neglected to return them as soon as they had finished reading them.

Under the new system there is a time limit of two weeks on all books with the exception of those needed in the various classes. If a library book is not returned within the two-week limit, a member of the Council traces it and secures its return to the library. A book may be kept for an additional period of two weeks by permission of a member of the Council or of Mrs. Kirk. With this system, the rate of circulation is increased; and everyone has a chance to read all the books that he wishes.

The members of the Library Council receive much in return for their efforts. By working in the library they learn library methods and systems which are universally used. From time to time faculty members and speakers from outside give informal talks to the Council on the subject of books and libraries. On April 15, Mr. Freiday gave a very interesting and informative talk to the group. He described some of the very large libraries of the world and explained in detail library systems of cataloging and cross-indexing. He also mentioned some famous private collections and explained how one may build up a personal library. In May, Miss Kathleen Jones, formerly of the state department of public libraries, spoke to the Council about library work.

On the whole, organizing the Library Council has developed a real interest in the library and its books on the part of all the boys in school. Suggestions for new books to be added to the collection are solicited from the boys, and gifts as well as suggestions are very much appreciated by Mrs. Kirk and the Council. The result is that the library more accurately reflects student interests and needs and consequently plays a larger part in school life.

The Dances

The annual fall dance was held on Saturday evening, December a dining hall was skillfully ornamented with several Christmas trees and pine boughs, and numerous lighted candles in the windows made a most cheerful dance floor. The music was supplied by Ken Reeves and his eight-piece orchestra.

The dance committee was composed of Loring Hubbell, Chairman; Winthrop Endicott, Locke Ellis, Samuel Kitchell, Robert Lyle, Clark Shepherd, Benjamin Pierce, and Joseph Pearson.

On Saturday evening, March 11, following the joint concert of the glee clubs of Abbot Academy and Governor Dummer Academy, a dance was given in the New Building for the members of the two clubs, with music by the Georgian Orchestra.

Following the joint concert with Walnut Hill, a delightful dance was held for the members of both clubs in the dining room. It was certainly the climax of a most delightful evening and everyone had a most enjoyable time.

The annual Milestone dance took place on May 27 in the New Building. A most unusual job was done in making this dance a great success. The committee consisted of Benjamin Pierce, Chairman; Dana Babcock, Frank Collins, Kimball Eastman, Loring Hubbell, Paul Morgan, Lewis Harrower, and William Torrey

R. T. H.

Commencement of 1938

It is necessary every year to give an account of the graduation exercises which took place the preceding year, because the MILESTONE is printed and distributed in advance of the exercises of the current year.

The Baccalaureate Service was held at the Adelynrood Chapel on Sunday, Junc 5. The Reverend Richard Reynolds Beasley of St. Michael's Parish, Milton, delivered the sermon. The service was conducted by the Reverend Glem Tilley Morse of West Newbury. Following the service, the Seniors and their guests were entertained at tea on the Mansion House lawn.

On Thursday evening, June 9, the Little Red Schoolhouse was formally opened. This schoolhouse was reconstructed by the generous gift of the Reverend Glenn Tilley Morse. Mr. Morse introduced the architect, Mr. William Graves Perry, who is noted for his direction of the restoration of Williamsburg, Virginia. Mrs. Sally Moody Cook of York, Maine, a great-great-grandniece of Master Moody, the first master, was present at the ceremony. Following this, the Senior Sing was held. Theodore Lacey, co-editor of the Milestone, presented the first copy of the year-book to Mr. Morse, to whom the book was dedicated. The gift of the graduating class to the school was presented at this ceremony, a portrait of the late Mrs. Carrie Knight Ambrose.

The graduation exercises were held on Friday, June 10. Dr. Alfred E. Stearns, Headmaster Emeritus of Phillips Academy at Andover, delivered the address at the exercises which marked the one hundred and seventy-fifth commencement of the Academy. President James Duncan Phillips of the Board of Trustees presented diplomas to the members of the graduating class. Mr. Edward W. Eames, Headmaster, awarded the annual prizes, including special and athletic prizes, to the boys who were best qualified in the different school activities. Following the exercises the Glee Club gave its final concert of the year in the Lang Gymnasium. Mrs. Rupert Neily of Portland assisted the club with two groups of piano pieces.

Luncheon was served the parents of the members of the graduating class in the New Building while a large number of guests were served a buffet luncheon on the Mansion House Lawn. The annual Alumni Dinner was held in the evening, and several hundred friends of the school attended. Dr. Claude Moore Fuess, Headmaster of Phillips Academy at Andover, presided as toastmaster. Mr. James Duncan Phillips, President of the Board of Trustees, Dr. Karl T. Compton, President of the Massaclusetts Institute of Technology, and the Reverend James T. Cleland of Amherst College were speakers.

G. M. L.

Prizes Awarded at the Commencement of 1938

THE GOODWIN ATHLETIC PRIZE Russell A. Simons Presented by Mr. Fred H. Goodwin for the best all-round athletic record of the vear.

THE DALTON HAMOR PRIZE John Koslowski Presented by the Class of 1921 for the best record in baseball.

TRACK PRIZE Niles L. Perkins, Jr. Presented by Mr. Charles I. Somerby to the member of the track team who has made the best record in track and field events.

THE MOODY KENT PRIZES

Presented by the Academy for the highest standing in each of the departments of study:

English Henry F. Cleaveland Classics Edward I. McDowell, Jr. Richard K. Merrill French German Fred L. Heyes, Jr. Mathematics Thomas L. Johnson Thomas L. Johnson Science Sumner R. Andrews History

THE THORNDIKE HILTON CUP Thomas L. Johnson Presented by the Class of 1919 in memory of their classmate, Thorndike Hilton, to the ranking student of the graduating class.

THE MORSE FLAG Theodore W. Lacev Presented by the Reverend Glenn Tilley Morse to that member of the graduating class whose record in all respects has met with the highest approval of the faculty.

The Master's Prize Russell A. Simons Presented by Mrs. Edward A. Eames to the member of the graduating class whose record in all respects has met with the highest approval of the faculty.

MUSIC PRIZE Richard K. Merrill

ART PRIZES First Prize, Painting Colgate G. Stockton Leonard A. Bullwinkle Second Prize, Painting Photography Prize Robert W. Seavey

Washington and Franklin Medal John H. Dver Presented by the Massachusetts Society of the Sons of the American Revolution for excellence in United States History.

HARVARD ALUMNI PRIZE

Robert J. Lyle

Presented by the Harvard Alumni Club of the North Shore to an all-round boy in the Junior Class.

SPECIAL PRIZES

To Leonard Alan Büllwinkle of Bangor, Northern Ireland, an English exchange student who has won our respect by his scholarship, his athletic ability, and his good sportsmanship.

To George Moss Simson of Summit, New Jersey. Concert pianist, electrical wizard, keeper of the clocks, storekeeper extraordinary, George has nevertheless this year discovered new talents as an after-dinner speaker which have astounded his friends. But George is just as satisfactory as a student and dependable as a boy as he is versatile in his ability. He is the sort of boy for whom special prizes were invented.

To Niles Lee Perkins, Jr. of Togus, Maine. Tackle on the football team, interscholastic hammer thrower, President of the Glee Club, honor student, Niles is a real down-easter, who drives just as hard in class work as he does on the athletic field.

To Francis Madigan Pierce of Portland, Maine, whose exuberance of good humor and high spirits has been a little hard on the furniture, but a good thing for the rest of us. Few boys this year have had such a good time or done such a good job.

To Ralph Howard Bean of Lowell. Few boys can be as popular as Ralph Bean, and at the same time so much respected for unselfishness and school spirit.

To Arthur Leonard Ellis of Wayne, Illinois. Leonard may be a slow starter but "he gets there just the same." To Leonard Ellis for his personal qualities of loyalty and perseverance.

To John David Eshelman of Lancaster, Pennsylvania, and Edwin Spink Sheffield of Newport, Rhode Island, two boys who are distinguished among the lower classmen for scholarship, for athletic ability, and for personal qualities of hard work and loyalty.

To Fred Lincoln Heyes, Jr. Since Fred entered the school four years ago, no boy has improved more in scholarship and in manliness, and the graduating class has no more loyal member than Fred Heyes.

Acknowledgments

Every year there are friends of The Milestone who, although not definitely connected with the staff, yet make generous contributions to the success of the book. We wish particularly to acknowledge our indebtedness to

The Gannett Publishing Company of Portland, Maine, for the photograph from which our end papers are made, and for the Air View on page 8

Mrs. Jane M. Gale for help in our accounting

Mrs. Edgar D. Dunning for hours of proofreading

Mr. Joseph Snyder for securing the majority of the advertisements

Mr. Harold Johnson of the Andover Press for relieving us of our worries

The patrons of the Milestone dance for pecuniary support

And our advertisers for making this book possible.

Exceeding the standards . . .

Typog- raphy	Are attractive and related type faces used throughout the book? Does typography suit the plan of book? Is it easy to read? Is there a proper relationship between body type, headings and identifications? Are the following common faults avoided: too many type families or sizes: type used too black or too heavy, body type too small for length of the line; excessive use of all-capitals?	Average Score 15
W. /	Typography Your Score	30
*Printing	Do opposite pages line up properly? Are pages properly backed up? (Hold a sheet of your book to the light and note whether or not the page behind lines up at the margins exactly with the page in front). Are bleed pictures properly trimmed? Is the eolor work perfectly registered? (i.e. does each color fit exactly the spots for which it is intended?) Is the ink distribution uniform throughout the book, or are some pages light and others dark in color? Are the pages free from offset (smudges or spots on the paper)? from broken type? from work-ups (spacing material that registers)?	Average Score 15
	Printing . Your Score	25

This is the rating given by the National Scholastic Press Association of the University of Minnesota to one of New England's largest Annuals—printed at the Andover Press.

{ Typography...100% above average } Presswork.... 67% above average }

Which explains why so many yearbooks in this vicinity choose Andover to do their printing.

They get superior workmanship and personal cooperation at a price they can afford to pay.
